Zero. We have been entering the applications into our database , setting up prioritization strategies and getting our ducks in a row. Staff has processing several applications and a few are in the library for public participation, but none have been registered to date. There are about 443 that have satisfied the requirements to have the 2009 permit administratively extended until we process their applications. We are working on dealing with the remainder whose permit has expired.

Gary,

I have to do some mid-year reporting for CAFOs for our states, and I was wondering how many CAFOs Maryland has registered under the new AFO GP as of 3/31/15.

Thanks for your help,
